Niagara Falls Boulevard Fact Sheet 05-25 Kluesner edits.docx

Eric and Mike,

Please take a look at the attached revised, clean version of the fact sheet. If I ruled the world, this is how I would say it. As you know, I don't rule the world, so let's discuss tomorrow at 10:30.

Definitely with the bowling alley comment. The occupied interior space of the bowling alley is not affected or something like that. Can we do a 1030am call tomorrow?

Regards,

Eric

Eric,

Copying Berry Shore for his awareness. I think we're close on the fact sheet. There are a couple of areas that still remain unclear and I'd like to discuss with you and Mike Basile tomorrow. Also, if I'm reading the fact sheet and have interest in, or am a visitor to, the bowling alley, I'm going to want a clear indication of what's going on there. Can we say in the appropriate section something to the effect of "the main interior of the bowling alley is not contaminated"?

Subject: Holy Trinity Cemetery & Niagara Falls Boulevard-Public Affairs

Importance: High

Good Morning:

I have two Public Affairs topics for both sites. For Holy Trinity a request to participate in a meeting and for Niagara Falls Boulevard, the fact

sheet.

- Please see email request below from the Town of Lewiston. On June 20th I will not be in Niagara Falls. My current known schedule at the Site will be May 31st through June 17th. Should I try to set up phone conferences with them with visuals via Adobe Connect, ask them to meet with me when I am up there or ask Mike Basile to see if he is available to attend the June 20th meeting?

- Attached are Dave's last versions of the fact sheet as well as my latest revision. I accepted most of the revisions with the exception of the title and maybe leaving out some more detail requested by Dave.

- Dave, next week will be the first removal **action** EPA has taken. Previously, it was all assessment. So that is why we are "set to conduct an action" in the title.

- There are several parcels to this site, so I have changed property to properties. However, that shouldn't be confused with the two buildings. The buildings and parcels that they sit on are owned by the same property owner. Two operations (Bowling and Building Supply), one owner. The other property owners are the church for one part of the parking lot and the Weber family for the wooded area. Those details do not need to be in the fact sheet. The interior removal work will mostly be conducted in the building supply. The only removal we will be conducting in the bowling alley will be the northern vestibule (which was an add on). I am not sure that is necessary to mention in the fact sheet because it will appear that the main interior of the bowling alley has contamination and it does not.

Please let me know if you have any questions but I was hoping to get the fact sheet out tomorrow to the local politicians and hand delivered by the end of the week by Mike B. if he is available once back from his

time off tomorrow.

Thanks to all.

Mr. Daly,

I am the secretary to the Town of Lewiston Environmental Commission. The Commission would like to meet with you, or a representative from the EPA, regarding the Holy Trinity Cemetery , 5401 Robert Street to obtain further information relative to the radioactive material found on the site as well as the proposed remedial cleanup.

The Commission invites you to its next meeting Monday, June 20 at 6:15 PM. Please advise me if you or a representative can attend.

Sincerely,

Carole Schroeder
